

TGI Group Inc. and AMIRON Group Announce Strategic Alliance for Green Digital Transformation

March 9, 2026 · 4 min read

NORTH BRUNSWICK, N.J., March 9, 2026 — TGI Group Inc. (OTC: TSPG), operating as Unicorp Environmental Group, and AMIRON Group are pleased to announce a strategic alliance focused on advancing green digital transformation initiatives across emerging markets.

Partnership Overview

This collaboration brings together TGI Group's expertise in renewable energy infrastructure and AMIRON Group's advanced digital transformation capabilities to create comprehensive solutions for sustainable development in high-growth regions.

The alliance will focus on integrating cutting-edge digital technologies with environmental infrastructure projects, enabling more efficient deployment, monitoring, and optimization of renewable energy systems.

Key Focus Areas

- **Digital Infrastructure:** Implementation of IoT and smart grid technologies for renewable energy systems
- **Data Analytics:** Advanced monitoring and predictive maintenance for waste-to-energy and solar facilities
- **Blockchain Integration:** Enhanced transparency in carbon credit tracking and environmental impact reporting
- **AI Optimization:** Machine learning algorithms for energy production forecasting and resource allocation

Strategic Benefits

The partnership positions both companies to deliver next-generation environmental solutions that combine physical infrastructure with digital intelligence. This integrated approach enables:

- Real-time performance monitoring and optimization of renewable energy assets
- Reduced operational costs through predictive maintenance and automated systems
- Enhanced transparency and accountability in environmental impact measurement
- Accelerated deployment timelines through digital project management tools
- Improved stakeholder engagement through data visualization and reporting platforms

Market Impact

This alliance addresses the growing demand for digitally-enabled environmental solutions in emerging markets, where rapid urbanization and industrial growth create both challenges and opportunities for sustainable development.

By combining green infrastructure with digital transformation, the partnership aims to deliver scalable solutions that can be rapidly deployed across multiple markets while maintaining high standards of environmental performance and operational efficiency.

About TGI Group Inc.

TGI Group Inc. (OTC: TSPG), operating as Unicorp Environmental Group, is a leading provider of environmental infrastructure solutions in emerging markets. The company specializes in waste-to-energy facilities, solar power installations, and blockchain-powered carbon registries.

About AMIRON Group

AMIRON Group is a technology company specializing in digital transformation solutions for the energy and environmental sectors. The company provides advanced IoT, AI, and blockchain technologies that enable organizations to optimize their environmental performance and operational efficiency.
